

Launching Future Leaders

Each summer, Arundel Rivers Federation is thrilled to provide internships for young adults pursuing environmental careers. **This is all thanks to our generous donors!** By supporting us this Giving Tuesday, you'll help us provide more opportunities for rising stars.

Sally's South River Story

Sally Albright interned with our organization over the summers of 2017-2019 and spent her time helping with field monitoring. Sally shared that her favorite memory was carrying a mini fridge out of the

Church Creek Headwaters in the heat of July with Sarah, the Federation's Environmental Scientist. They carried the mini fridge through the wetland, up a steep hill, and into a truck to dispose of properly. This was an exhausting endeavor, but they motivated each other by yelling, "GIRL POWER!" every so often. Thanks Sally for sharing your talents and memories!

She said that interning helped her find her passion and contributed significantly to advancing her career. Now she's off to work for a government agency in charge of using the County's stormwater fees to restore our waterway. Congratulations, Sally! We're so proud of you.

Why should other people support Arundel Rivers Federation? Sally explained, **"because they have their finger on the pulse of the South River watershed and community. Work with them for one day, and I'm sure it won't be your last."**

Help us find more interns like Sally!
